

Children's Wishes

10 year-old Kevin from Pawtucket, RI, who was diagnosed with a bone growth disorder, had his wish of going to Disney World granted by Children's Wishes in November 2010. He and his family arrived in style at the airport in a limousine donated by Sentinel Limousine of East Providence, RI. Kevin's family was kind enough to write the letter below and share some special pictures with us so we could all be a part of the magic!

Our Family thanks you for the incredible gift you have given us. The trip to Orlando, Florida going to Walt Disney would never have happened if Kevin was not chosen by Children's Wishes and Hot Wheels. That is why we thank you dearly for the occasion. We are grateful for the wonderful opportunity of flying, leaving and arriving in a nice limo, and the money we were provided by. We had tons of fun at all the amusement parks. Kevin's favorite was magic kingdom. This experience was really a privilege. There are so many memories we have as a family, gathered on this special vacation. We will never forget what Children Wishes made possible for us.

Love,

Kevin Martinez
The Martinez Family
